Session : 2020 - 24
CGPA : 3.44 /4.0

HONORS AND AWARDS

FreeCodeCamp Javascript Mastery Course
May 12, 2021

CERTIFICATIONS

Corvit Training Center
Full Stack Web Developer / MERN Stack Developer
July 7, 2023

COURSEWORK

- DataStructures andAlgorithm
- Object Oriented Programming
- Semantic web
- Web Development
- Database Management
- Software Design and Architecture
- Software Construction and Development
- Software Requirements Engineering
- Technical Writing
- Communication Skills
- Computer Communication and Network

RECENT PROJECTS

Coins ATH App
(FastShop Technologies Limited company project)
https://play.google.com/store/apps/details?id=com.beanz123.coinsath&pcampaignid=web_share
<https://apps.apple.com/us/app/coins-ath/id6749264597>
A production-ready React Native mobile application that tracks the Top 100 cryptocurrencies with real-time price updates and All-Time High (ATH) analytics. The app is deployed on both Android and iOS platforms and includes real-time advertisement integration for monetization. Designed with scalable architecture and optimized performance for mobile devices.

United Food App
(FastShop Technologies Limited company project) In-Complete
<https://github.com/SAUDJAN1/United-Food-App>
United Food App is a production-grade food ordering application available on both Android and iOS. Users can browse restaurants, view menus, place orders, make secure payments (including PayPal), and track order status in real time. The app focuses on performance, usability, and scalable real-time functionality.

DXBsellmycar App
(FastShop Technologies Limited company project)
<https://play.google.com/store/apps/details?id=com.SellmyCarUAE&hl=en>
<https://apps.apple.com/gb/app/dxb-sellmycar/id6748740368>
SellMyCarUAE is an online platform that allows users to easily buy and sell cars across the UAE. Users can list their vehicles, browse available cars, and receive instant price quotes, making the process fast and convenient. The platform ensures secure transactions, verified listings, and a hassle-free selling experience. Designed to connect buyers and sellers efficiently, SellMyCarUAE helps save both time and effort while making car trading straightforward and reliable.

Five Star App
(FastShop Technologies Limited company project) In-Complete
<https://github.com/SAUDJAN1/Five-Star-App-Latest-Version>
Five Star App is a comprehensive food delivery application available in England (Bradford). It supports real-time delivery tracking, secure payments, and a full-featured user and restaurant interface. This project showcases real-time database integration and scalable mobile architecture.
